RE: The 11-65 proceeding regarding AT&T's request to merge with T-Mobile USA

Dear Chairman Genachowski:

I am writing to voice my support for AT&T's proposed merger with T-Mobile USA. As owner of Skarbowski Construction Company, I believe this merger would result in improvements to communications capabilities that could help my business.

Skarbowski Construction specializes in building, remodeling, home improvement, repairs, and restoration work. The nature of our work requires us to spend most of our time split between various job sites. We require a fast, dependable communications network to maintain contact with one another regarding supply orders, job changes, worker scheduling, etc. Because we work on our client's schedule, we can't afford to waste time with slow Internet connections or repeatedly dropped calls. In our line of work, time really is money.

This is why I support the AT&T merger with T-Mobile USA. I understand that AT&T would expand its 4G LTE service to more than one million additional square miles than current plans offering improved mobile broadband services. For my company, these improvements would mean less time spent on logistics and more time spent completing the work our customers need.

Please consider the convenience and efficiency that this merger would bring to companies like mine.

Sincerely,

Steven Skarbowski
Owner, Skarbowski Construction, LLC
